

Costas M. Pitychoutis (BEd, Cert. TESOL, Dip. TEFL, MA TESOL) has been a language practitioner for 10 years. His interests in language teaching and learning as well as Teacher Education, range from Multiple Intelligences theory and implementation to SLA and humanistic approaches. His work as a teacher at Upper intermediate levels and as a teacher educator in methodology courses have provided him with ample opportunities for ongoing development in his chosen areas of interest. His current research centers on the development of reading programs that can optimize cognitive skills required in different social and educational contexts.
